## **BIG MERCHANDISE TRADE**

ONLY UNFAVORABLE FACTOR IS THE Feb. 1 the Adams Express will begin busi-FREIGHT-CAR SHORTAGE.

> Steel and Iron Output Practically Sold for the Year-Week's Grain Movement-Bank Clearings.

NEW YORK, Jan. 23 .- R. G. Dun & Co.'s weekly review will say to-morrow: Heavy transactions in merchandise are reported, but there is much complaint regarding the slow movement of freight. The situation as to general lines is aggraof the St. Louis & San Francisco and the vated by the precedence given fuel over all other freight except live stock and perishable goods. Notwithstanding the extensive increase in transporting facilities during the past year, some roads have crease of capital stock from \$12,000,000 to been compelled to decline consignments, and in many cases where a large number of cars were desired only one was provided. Earnings thus far available for crease over the corresponding week of last January surpass last year's by 5.6 per cent. year of \$8,093. In the two weeks the earn-It is conspicuous in practically every part of the country that, despite high prices, buying is liberal and of the better qualities of goods, while dealings as a rule are on more of a cash basis. Demand for building materials is unusually brisk for the season, and prices of umber at the South have advanced. Although fortunate sections are receiving a better supply of fuel, the situation is still serious, and many pig iron furnaces have been added to the idle list. As producers will be sent to the Topeka Hospital. It is understood that local parties will purchase have sold their capacity for some time, there is little new business and no effort on the part of the sellers to secure con-Net earnings of all the ratiroads in the tracts. Hence prices of pig iron are steady United States reporting for January to date and new transactions light. As to the dewere \$6,722,435, a gain of 6.9 per cent. over mand for finished products, requirements last year, and 19.3 per cent. over the corare still pressing in railway equipment, responding period of 1901. Most of the roads both structural and rolling stock, and it is stated that orders have been placed for as W. W. Richardson, district passenger many tons of steel rails as were produced agent at this point of the Pennsylvania, in the full year of 1902. Steel for buildings, bridges and ships finds a ready market and who has been in Pittsburg a couple of days implement makers are more active. New orders for merchant steel are light but cials in the office of E. A. Ford, general

old contracts are still numerous. New England producers of boots and shoes are actively engaged on seasonable lines and there is enough business on hand to keep most plants in operation two months at least. New business comes forward rather slowly, and there are few supplementary orders for spring lines. Trade in leather is better, domestic shoe manufacturers operating on a more liberal scale, while export sales of some are in-

creasing. As to cotton goods, the situation grows steadily stronger, demand for immediate needs preventing accumulation of supplies and leaving an increasing number of orders unfilled. A few open advances in quotations are recorded, while a quiet curtailment of discounts is reported in progress. Orders for standard print cloths at less than 31/4 cents are rejected and wide goods are also firmly held. Export buying has practically ceased. With the exception of a few of the finest grades, woolen goods for the fall of 1903 are now fully opened. Failures for the week number 265 in the United States, against 301 last year, and 27 in Canada, compared with 23 a year ago. Bradstreet's summary of the grain movement shows that wheat, including flour, exports for the week aggregate 3,538,757 bu against 4,878,624 last week, 3,639,679 in this week a year ago, and 4,838,678 in 1901. Wheat exports since July 1 aggregate 144,-179,557 bu against 161,838 last season and 112,049,646 in 1900. Corn exports aggregate 2,376,603 bu against 2,394,612 last week, 179,520 a year ago, and 3,972,152 in 1901. For the running the first train into Guthrie, O. T. | fiscal year exports are 18.854,701 bu against 21,434,967 last season and 112,907,647 in 1901.

## BANK CLEARINGS THIS WEEK.

Indianapolis Total Under New Method of Computation Only \$6,706,078.

The following table, compiled by Bradstreet, shows the bank clearings at the principal cities from Albany to Chatham. This will re- for the week ended Jan. 22, with the percentage of increase and decrease as compared with the

Griffiths Accepts the Offer-Other Court Cases.

SECURES STRIP OF LAND.

The Indianapolis Traction and Terminal Company will own the strip of land at Illinois and Wabash streets, which is wanted by the company. The property is owned by the Griffith heirs, and when an offer of \$84,500 was made to them through Probate Commissioner Walker it was refused. The heirs held out for \$90,000. Yesterday afternoon the guardian of the heirs appeared before Commissioner Walker and agreed to accept the offer made by the terminal

The property in being sold for \$84,500 brings a price that is considered high by real-estate men. The ground has a frontage of sixty-five feet on Illinois street, and sold for \$1,300 a front foot. It adjoins the Miller property, which is to be razed that the new terminal station can be

### APPOINTMENT OF RECEIVER.

Everett Wagner Takes Charge o

Commercial Insurance Company. Judge Leathers yesterday appointed Everett Wagner receiver for the Commercial Insurance Company, of New Albany, on petition of the State National Bank and Trust Arizona and Southwestern business. It has | Company, of Fort Worth, Tex. The bank holds notes against the company for a small amount. Charles O. Roemler, attorney for the Fort Worth Bank, stated in court that the insurance company had liabilities amounting to \$30,000, and that its only assets were \$2,000 in uncollected premiums and office furniture. The company has desks and other furniture in the Bald win block.

The Commercial Insurance Company has as its president D. B. Holman, of this city. Hillis F. Hackedorn and Dr. Wilmer Christion, of this city, are directors. They claim

### Damage Suits Filed.

Two damage suits against the street railway company were filed yesterday. Michael Moriarity was struck by an east-bound Irvington car at Alabama and Washington streets. He also makes the Merchants' Heat and Lighting Company defendant. Moriarity was employed by the Merchants' Company at the time he was injured. He was handling a wheelbarrow. He asks \$5,000 damages. The other suit was filed by Christinia Harvey on behalf of August Harvey, who was injured several weeks ago at La Salle

and Washington streets. The same sum is Charles B. Willitts brought suit against the city for injuries done his wife. Willitts asks \$5,000. Mrs. Willitts was injured by falling in a hole in the sidewalk on Blake street one night last summer. A few days ago she brought suit against the city for

## the same amount.

In the Juvenile Court. Chester and Henry Harrison, two little colored boys, were soundly whipped yesterday in Juvenile Court after being found | brief (8). guilty of assault and battery by Judge Stubes. The boys assaulted another colored boy five years old. In passing sentence on the boys Judge Stubbs told the mother to take them into the cellar and "whip them to the Queen's taste. The other case in Juvenile Court was that of Lillie Wilson, colored, who was charged with stealing two dozen handkerchiefs. The girl was found guilty, and, as she has no home, was taken in charge by the managers of the Board of Children's Guardians.

Two Gas Engines Involved.

Charles A. Korbly, an attorney, was appointed receiver of the Central Power Company yesterday by Judge Leathers. Complaint was made by the New Albany National Bank, which held notes against the power company. The notes aggregated \$1 .-643.34, given in payment for two gas engines. The notes were placed in the hands of the bank for collection. The engines were said to be defective by the company. The engines are worth only their value as scrap iron, which it is thought will bring \$1,000. The bank has made a bid for the engines.

John J. Johnson Settles. John J. Johnson appeared before Probate Commissioner Walker yesterday and paid \$6,500 to the estate of his ward, George W. Johnson, insane. The money was due the estate on account of the guardian having used his ward's funds in his personal transactions. The guardian was found to be short in his accounts a few days ago by Judge Walker and his resignation was asked. James A. Pritchard was appointed guardian of George W. Johnson yesterday, filing a bond of \$16,000. The Federal Union Surety Company gave the bond.

## Not Considered Enough.

An intervening petition was filed in Judge Leathers's court yesterday asking that a former judgment of \$550 awarded to Ford Bazel, through his next friend, against the Pennsylvania Railroad be set aside. Nathaniel A. Seymour, guardian of the boy, in his petition said that \$1,000 was the sum asked for in the original complaint. Seymour said that the sum was in the nature of a compromise.

Wants Property Rights Defined. Abbie O'Connell yesterday through her attorney filed suit against Henry Snyder and Henry Klausman, county surveyor, for a resurvey of her property. The woman owns property on Stillwell street that adjoins a lot owned by Snyder. She alleges that when the survey was made by Klaus-man the boundary line was moved sixteen inches on to her property.

## Motion for Stay of Execution.

Attorneys for Ora Copenhaver, who is under sentence to be executed Feb. 13 for murdering his wife, yesterday filed a motion in the Supreme Court for a stay of execution until the appeal, which was filed on Thursday, can be considered. The Su- |-Defective Elevator-Excessive Damages .preme Court on next Tuesday will act on the motion.

## A Venire of Seventy Men.

A venire of seventy names was drawn vesterday from which to select a jury to try the case of Dr. Joseph C. Alexander. Fifty of the men are from this city and twenty are from the county.

#### RECENT LEGAL OPINIONS. -The Rights of Conspirators.-An important point upon which there was no direct precedent was recently decided by an English court in the case of Rex vs. Plummer (2 King's Bench, 339), as to the

in the headnote: "On the trial of an indictment charging three persons jointly with conspiring together, if one pleads guilty and has judgment passed against him, and the other two are acquitted, the judgment passed against the one who pleaded guilty is had and cannot stand " At first sight that seems a very extraordinary state of the law, that a person may plead guilty to an offense, may be senenced, and then, because some one else who was his partner in crime is lucky enough upon a plea of not guilty to get acquitted, the self-confessed criminal is also to go

been no crime at all unless more than one

person has been concerned in it, and it

makes no difference whether the person who pleads guilty thought that he was and the court which sentenced him accepted that view in lieu of proof. -Contracts of Public Officers-Validity.-Nearly every State has a statute providng that a member of the Common Council a city or village cannot lawfully enter into a contract with the municipality for his own benefit, depending upon authority derived from a vote of such Council. In a late case the Supreme Court of Minnesota holds that where an illegal contract has been entered into between the Common Council of a village and one of its mempers, upon which such member has received money, it may be recovered for the village in a suit by a taxpayer.-[92 Northwestern Rep. (Minn., Judge Lovely), 520.] -Evidence-Performance of Physical Act --For the purpose of showing the extent of the plaintiff's injuries, received in a rail-

caused by the accident was not error .-[Clark vs. Brooklyn Heights Railroad Company, New York Supreme Court, January, An employe injured by the fall of an elevator had his leg broken in two places, his back seriously injured, and received a great shock. He was unable to work eight months later, and it was apparent that he was permanently injured. Held, that \$4,000 damages was not excessive. His suit for damages cannot be defeated because he failed to return to his employers the money which he had received for wages and medical bills after the accident, where it was

[7] Southwestern Rep. (Kentucky, Judge Paynter), 3.] -A Prehensile Court .-"From the time of the filing of the petition [in bankruptcy], here," says the court in the case of re Elmira Steel Company. (109 Federal Reporter, 473), "and the order restraining interference with it, the property of this bankrupt was in the prehensory power of this court." According to Webster's Dictionary "prehensory" means "prehensile." Under the word "prehensile" in the Century Dictionary we find the following references: "See cut above, porcupine, and cuts at Cebinae, marmose, muskcavy, oppossum and spider monkey."-[Law Notes for January.]

### The Case of Apostle Smoot. Buffalo Commercial.

A New York family had visiting them for the holiday season a venerable female relative from up in Connecticut. The other evening she was asked: "Do you think that Reed Smoot, the Mormon apostle canwithdraws his plea of not guilty and pleads | didate for the Senate, is guilty of bigamy, guilty to petit larceny. Fined \$10 and costs | Aunt Melissa?" "Bigamy!" ejacuiated the aunt. "He is guilty of trigonometry at least." This discussion over the status of Apostle Smoot, by the way, recalls one of Rosina Vokes's most taking songs:

#### For his 'art was true to Poll!" Something Humorous.

"Though it look like polygamy

It wasn't even bigamy.

Baltimore American. The Empress Dowager of China has po chants' Heating and Lighting Company; litely been asked to step down and out by damages. Superior Court, Room 3. Harry Harvey, by next friend, Christinia humorous with boiling oil in it.

THE WONDER OF THE AGE

## The "Omega" Odorless Gas Stove

Marks a revoluton in gas heating and household sanitation. Perfect combustion is secured by the generation of intense heat and the thorough mixing progressively of the gas supply with air, by which it is possible to use at least forty-five cubic feet of air to every cubic foot of gas. Its operation combines three important and indespensable factors-economy in fuel, perfect combustion, sterilization. In the "OMEGA" they are the result of mechanical combinations produced as the result of extensive scientific research.
